

Information Disclosure Statement

Applicant's information disclosure statement of 10/16/09 has been fully considered by the Examiner. The information disclosure statement consists of an Office action for case 11/578,541. Specifically, the information disclosure statement of 10/16/09 cites a Final rejection for case 11/578,541, which was mailed on 5/15/09. The prior art references cited in the Final rejection are not believed to be applicable to the instant claim. Specifically, the prior art references cited in the Final rejection are:

- (1) Simonnet (US Pat. 6,120,778)
- (2) Simonnet et al. (US Pat. 5,919,487)
- (3) Tsubaki et al. (US Pat. 5,472,686), and
- (4) Simonnet et al. (US Pat. 5,958,433).

References (1)-(3) are included on an attached PTO-892 form. Reference (4) is already of record (cited on Applicants information disclosure statement of 3/6/08).

None of the above prior art references teach or fairly suggest the structural limitations of the silicone polyether copolymer required by the instant claim. Specifically, all of the Simonnet patents do not teach that "x" be an integer of from 251-1,000. The highest value of "x" taught by Simonnet is 200. Tsubaki et al. does not teach the structures of instant claim 1 at all, but rather, Tsubaki et al. teaches silicone-polyether block copolymers, and not silicone-polyethers having the polyether moieties as pendant groups.

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROBERT LOEWE whose telephone number is (571)270-3298. The examiner can normally be reached on Monday through Friday from 5:30 AM to 3:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
